### Education

- upper secondary school graduate      Oulun Lyseon lukio      05/1995  
final grade Laudatur
- Bachelor of Science      University of Helsinki      11/2007  
major subject studies 117 cr, computer science / software engineering  
final grade 5 (excellent)  
minor subject studies 55 cr, mathematics, statistics  
final grade 3 (good)
- MSc student      University of Helsinki  
estimate of graduation      2008  
major subject computer science / software engineering  
minor subject economics  
I am working on my Master's thesis on the subject of  
"Software Architecture Reconstruction"

### Work experience

- Novo Group Oyj      06/1999 - 09/1999  
trainee, department of product development
- NovoExtend Oy      09/1999 - 05/2001  
software engineer, Internet-specialist
- Mobilemode Europe Oy      05/2001 - 06/2002  
senior software developer, technical project manager
- Emillion Oy      07/2002 - 12/2005  
share holder, software architect
- Suomen kiinteistösuunnitelma Oy      since 05/2007  
software architect

### Courses

- FCS Partners  
XML-technologies and programming      05/2000  
Advanced Java      10/2000
- BEA Systems, Inc.  
Introduction to J2EE and BEA WebLogic Server      06/2000  
BEA WebLogic Server Development      06 - 07/2000
- Tieturi  
Unix-basics      11 - 12/2000

## Skills

### Project experience

Since year 1999 I have been working mainly on projects using J2EE-technology, in three different companies. I have experience on working as a software designer, a software architect, a testing engineer and as a technical project manager.

My job description has included designing databases, J2EE-software architectures, user interfaces and working with the customers.

When working in different projects, I have participated in every phase of the traditional software process, including requirement analysis, software design, implementation, testing and maintenance.

Nowadays my job mostly involves designing software architectures and improving software development processes.

My current assignments have taken me into designing and developing software with Microsoft technologies, specially .NET framework.

### Programming languages and technologies

Java2SE, J2EE, SQL, HTML, C#

XML, UML, J2EE - technologies, .NET - technologies, design patterns

### Development tools

Eclipse, XDoclet, Ant, Log4j, Visual studio 2005, MS Visio

### Application servers

BEA WebLogic server, JBoss, IBM Websphere

### Databases

relational databases; Oracle, SQLServer

### Operating systems

Windows NT/2000/XP, UNIX / Linux - basics

## Additional information

### Language skills

Finnish - native, English - fluent, Swedish - satisfactory

### Military rank

second lieutenant, Kainuun rajavartiosto, SissiK, II-1996

### Confidential posts

Pohjois-Pohjalainen Osakunta

(a student organization of around 400 members)

member of the board

01/1998 - 12/2000

curator

02/2005 - 02/2007

Ylioppilasasuntolasäätiö

(a foundation managing student apartments)

member of the board

since 02/2005

chairman of the board

06/2005 - 06/2006

Pohjalaisten talosäätiö Ostrobotnia

(a foundation managing the student organization house of Ostrobotnia)

member of the representative body

since 02/2007

### Interests

non-profit organizations, telemark-skiing, snowboarding, hiking, scouting, sea kayaking
